

Project Development Phase Performance Test

Date	30 September 2026
Team ID	SWTID-2026-9596
Project Name	Implement Client Script and UI Policy (Incident)
Maximum Marks	

Model Performance Testing:

Project team shall fill the following information in model performance testing template.

S.No.	Parameter	Screenshot / Values																				
1.	Data Rendered	Incident records from the Incident table are shown in the list view (Number, Caller, Priority, Short description). Incidents <table><thead><tr><th>Number</th><th>Caller</th><th>Priority</th><th>Short description</th></tr></thead><tbody><tr><td>INC0010021</td><td>Ravi Kumar</td><td>3 - Moderate</td><td>Printer offline</td></tr><tr><td>INC0010022</td><td>Anita Das</td><td>2 - High</td><td>VPN not connecting</td></tr><tr><td>INC0010023</td><td>John Paul</td><td>4 - Low</td><td>Password reset</td></tr><tr><td>INC0010025</td><td>Priya Nair</td><td>1 - Critical</td><td>Email not working</td></tr></tbody></table>	Number	Caller	Priority	Short description	INC0010021	Ravi Kumar	3 - Moderate	Printer offline	INC0010022	Anita Das	2 - High	VPN not connecting	INC0010023	John Paul	4 - Low	Password reset	INC0010025	Priya Nair	1 - Critical	Email not working
Number	Caller	Priority	Short description																			
INC0010021	Ravi Kumar	3 - Moderate	Printer offline																			
INC0010022	Anita Das	2 - High	VPN not connecting																			
INC0010023	John Paul	4 - Low	Password reset																			
INC0010025	Priya Nair	1 - Critical	Email not working																			
2.	Data Preprocessing	No data cleaning is needed. The Client Script checks the Priority value on the form when it is changed (onChange) before the record is saved. Client Script Update Name Table Type Priority Alert Incident onChange Field name: Priority UI Type: All Active: true <pre>function onChange(control, oldValue, newValue, isLoading) { if (isLoading newValue == '') return; if (newValue == '1') { alert('Critical incident. Add details.');</pre>																				
3.	Utilization of Filters	Condition filter used in UI Policy: Priority is 1 - Critical. The rule works only when this condition is true. UI Policy Update Short description Make Description mandatory for Priority 1 Table: Incident Active: true Conditions Priority is 1 - Critical UI Policy Actions Field: Description Mandatory: True																				

4.	Calculation fields Used	Script used: if (newValue == '1') then show alert message. UI Policy Action: Description field - Mandatory = True. UI Policy Actions <table><tr><th>Field name</th><th>Mandatory</th><th>Visible</th><th>Read only</th></tr><tr><td>Description</td><td>True</td><td>Leave alone</td><td>Leave alone</td></tr></table>	Field name	Mandatory	Visible	Read only	Description	True	Leave alone	Leave alone
Field name	Mandatory	Visible	Read only							
Description	True	Leave alone	Leave alone							
5.	Dashboard design	No of Forms / Screens - 1 (Incident form) Incident New record Submit Number INC0010025 Priority 1 - Critical Caller Priya Nair Short description Email not working Description * The following mandatory fields are not filled in: Description								
6	Story Design	No of Forms / Screens - 3 (Priority change, alert message, mandatory field error) Alert Critical incident. Please add full details in the Description field. OK
